NEWS RELEASE

For immediate release

KAHNAWÁ:KE REPRESENTATIVES TO ATTEND CONTINENT 8 RIBBON CUTTING CEREMONY

Kahnawá:ke (22 Tsothohrkó:wa/January 2008) Grand Chief Michael Delisle, Tewaohnni'saktha Board Chairman Wayne Delormier, Tewaohnni'saktha Board Member and MIT Board of Supervisor Chuck Barnett and Tewaohnni'saktha CEO John "Bud" Morris, will be travelling to the Isle of Man this week to attend a ribbon cutting ceremony for Phase 1 of Continent 8 Technologies PLC's newly completed \$6.5 million data center in Douglas, Isle of Man. Representatives from the Internet Gaming Industry and the Isle of Man government will also be in attendance.

Continent 8 Technologies PLC (Continent 8), an Isle of Man data center company in which Kahnawá:ke has a 40% interest through Onkwawista Limited, generates revenue by providing services to Internet Gaming Companies around the world through service contracts with Mohawk Internet Technologies, a band-empowered entity, and Continent 8 Technologies Malta, a wholly owned subsidiary of Continent 8.

The new data center is the first wholly owned and operated by Continent 8 and it will provide internet services to Continent 8's clients licensed in Isle of Man. The new data center has 39 racks which complements 48 racks under contract in Malta and 220 racks under contract with Mohawk Internet Technologies.

Also expected in the Isle of Man this week is the confirmation of a new \$1.7 million dollar dividend by Onkwawista to the Mohawk Council of Kahnawá:ke.
